Company profile

Our company is specialized in the construction of **mechanical precision components** by means of machine tools.

Our business is significantly diversified: from automation (filling machines, rinsing machines, labelling machines, etc.) to optoelectronics, from packaging to biomedical. Last but not least, motorbikes spare parts and special components made of non conventional materials like Ergal 7075, Magnesium, Titanium.

Normally we work carbon steels like C40, 39NiCrMo3 and others, stainless steels like AISI303, AISI304, AISI316/316L, AISI420, aluminium alloys and Ergal (eg. 6060, 6082, 5083, 7075); bronze and alloys, brass, and also plastic materials like PA6 (nylon), PE (polyethylene), PTFE (teflon), PVC, PVDF, etc.

Drawings and specifications are basically supplied by our customers, yet we can provide them by sample measuring.

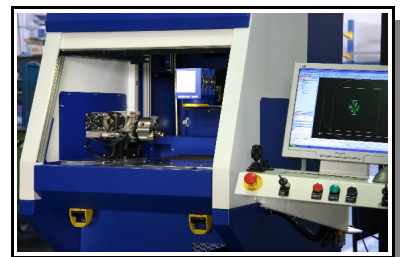

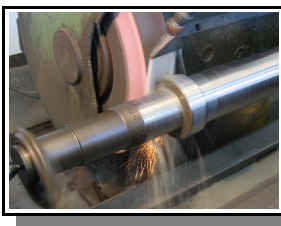

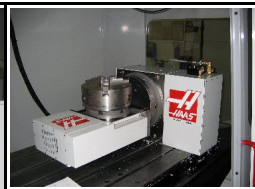

G.B.M. start working in 1974 by Mr. Gianni Baracchi; nowadays the factory takes up more than 1500 m², with a staff of almost 20 technicians and skilled workers. G.B.M. can be considered as a very flexible and reliable partner.

Machine tools available on site

max dimension: turning \varnothing 600 (approx.) L=2000 mm, milling mm 2000X800 H=750

- *CNC Vertical milling center Haas VF-7 with 5 axes table and high speed*
- *CNC Vertical milling center Haas VF-3 with rotating table and high speed*
- *CNC Vertical milling center Haas Super Mini Mill with high speed*
- *CNC Vertical milling center Leadwell V-25 with rotating table*
- *CNC Vertical milling center Leadwell MV1000*
- *CNC Lathe Doosan Puma 400 LMB with C axe*
- *CNC Lathe Goodway GA330LM with C axe*
- *CNC Lathe Daewoo Puma 300LM with C axe*
- *CNC Lathe Goodway GSL150 with bar loader*
- *CNC Lathe Goodway GSL 200 with C axe*
- *CNC Lathe Goodway GS280 with C axe*
- *N° 2 CNC Lathe Leadwell LTC-20AP*
- *CNC Lathe Leadwell LTC-20CP*
- *Universal and linear Grinder*
- *N° 2 manual Lathe*
- *N° 2 CNC Milling*
- *N° 3 Mechanical automatic cam lathes*
- *Hobbing machine*
- *Slotter; TIG and MIG welding machines*
- *NEW: Fiber laser marking machine 20W*

Technical office

- *CMM*

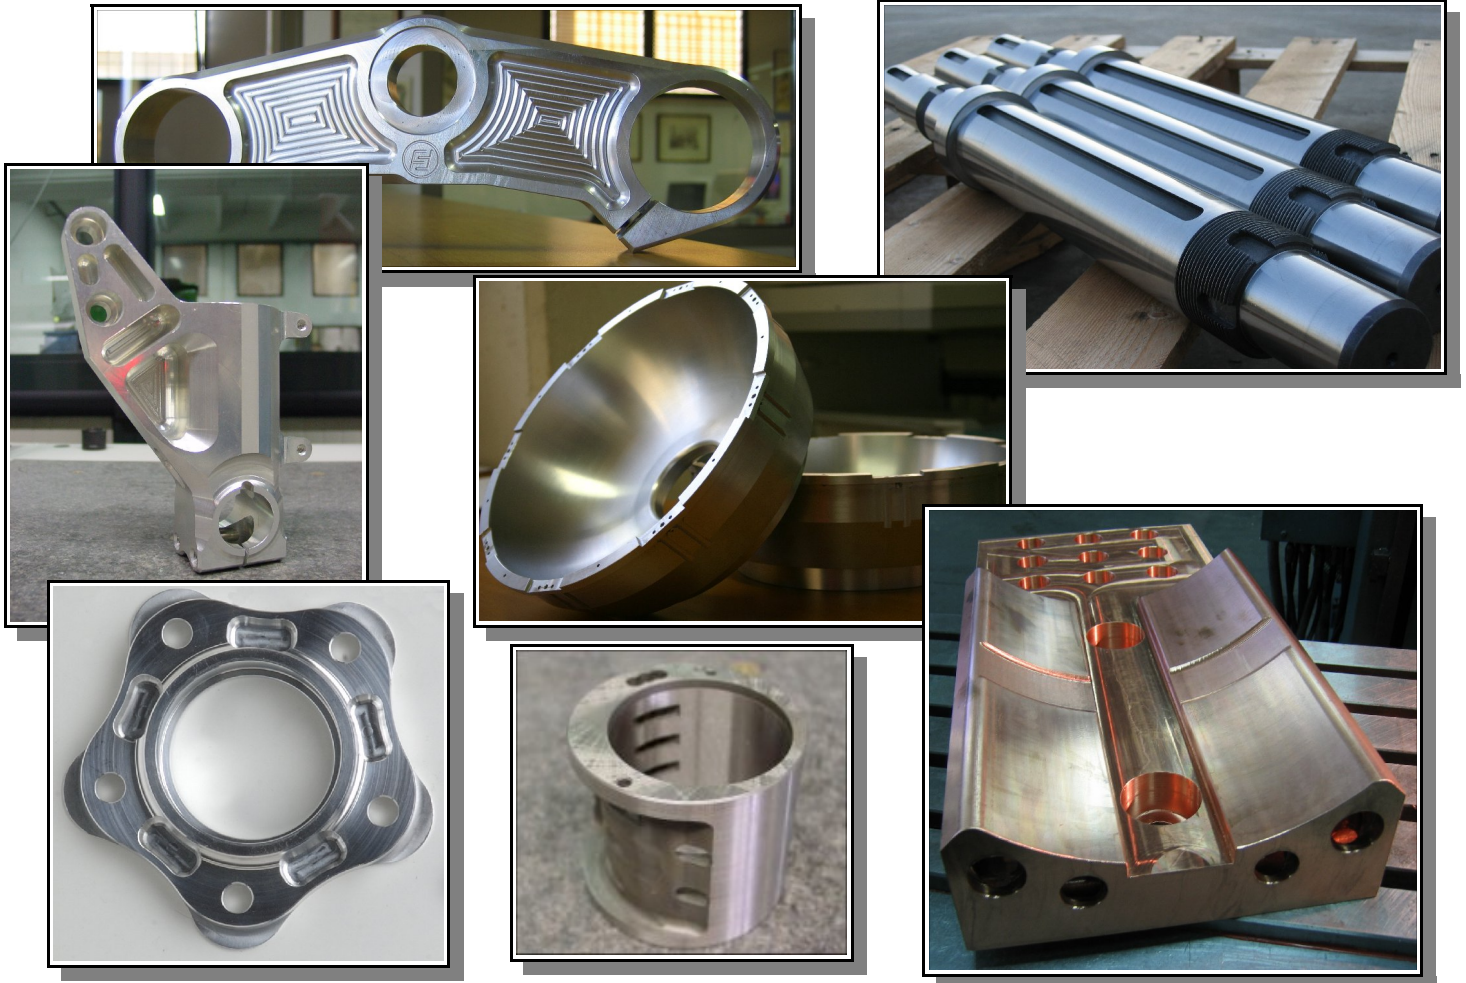

- *Profile projector*
- *Durometer*
- *Roughness meter*
- *Software cad & cad/cam.*

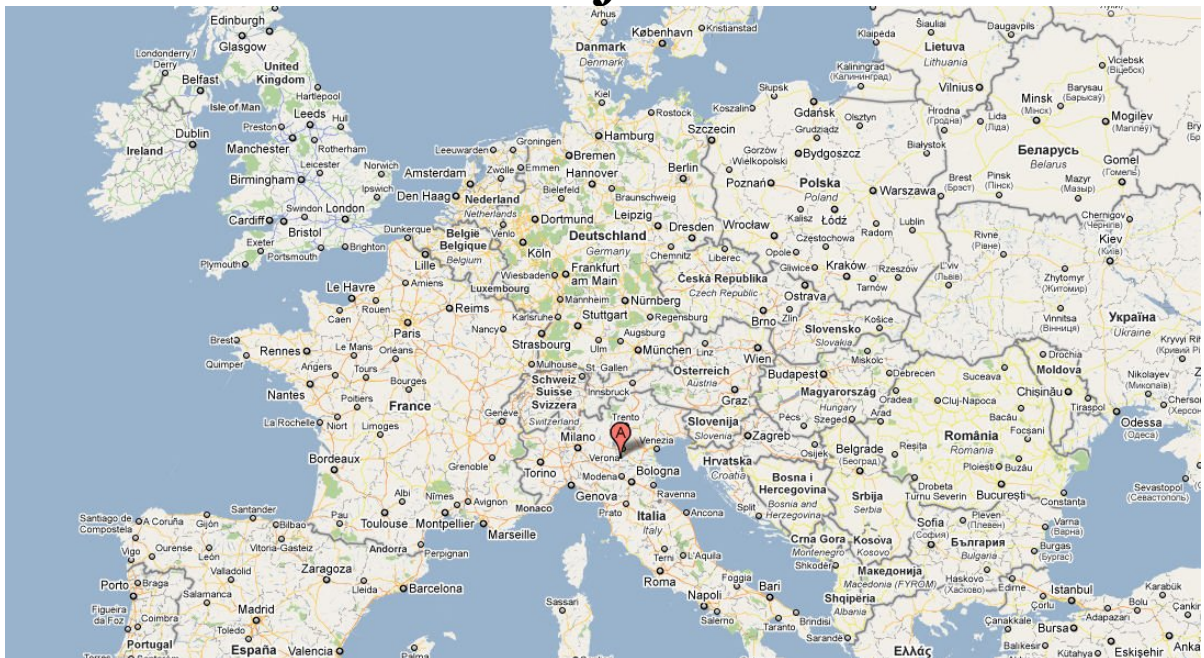

Some examples of our production

We are pleased to show you some of our items for different applications

How to find us!

Don't hesitate to contact us!
